

Camera calibration target — 9x6 inner corners (10x7 squares) — square = 25.0 mm

PRINT AT 100% / ACTUAL SIZE — disable 'Fit to page' / 'Shrink to fit' / scaling

50 mm — measure after printing; if not exactly 50 mm use the MEASURED square size for --square-mm

calibrate_camera.py --cols 9 --rows 6 --square-mm 25.0
